Vocal music is allowed.

A well balanced Free Skating program for Single Skating must contain:

A well balanced Free Skating program for Single Boys and Girls must contain:

- a) Maximum of 6 jump elements one of which must be an Axel type jump. There may be up to two (2) jump combinations or one (1) jump combination and one (1) jump sequence. One jump combination or jump sequence can consist of up to three (3) jumps, the other up to two (2) jumps. A jump sequence consists of two or three jumps of any number of revolutions, in which the second and/or the third jump is an Axel type jump with a direct step from the landing curve of the first/second jump into the take-off curve of the Axel

jump. One full revolution on the ice between the jumps (free foot can touch the ice, but without weight transfer) keeps the element in the frame of the definition of a jump sequence. Jumps executed in a jump sequence 5 receive their full value. Only two triple jumps can be repeated either in a jump combination or jump sequence. No quadruple jumps are allowed. Any single, double (including Double Axel) or triple jump cannot be executed more than twice in total.

- b) There must be a maximum of two (2) spins of a different nature (abbreviation). One spin must be a spin combination with a change of foot which must have a minimum of eight (8) revolutions, a flying entrance is not allowed. One spin must be a flying spin which must have a minimum of six (6) revolutions, a change of foot is allowed but a change of position is not allowed.
- c) There must be a maximum of one (1) step sequence fully utilizing the ice surface.

For Pre-NoviceSingles, in all elements that are subject to Levels, only features up to Level 3 will be counted. Any additional features will not count for Level requirements and will be ignored by the Technical Panel.

Bonus for Pre-Novice Single Skating

Skaters can earn +1 bonus points for 2A/3 jumps that are achieved in Free Skating.

To be eligible for bonus points, jumps must be fully rotated or landed on the quarter (q) and must be in accordance with the Short Program requirements respectively the well balanced Free Skating program and the repetition rules for jumps. Jumps can be performed as a solo jump, or in jump combination or jump sequence. Jumps that are identified by the Technical Panels as under-rotated (<), downgraded (<), with wrong edge (e) or have a fall or being identified as invalid element (*) are not eligible to receive bonus points. Technical panel will award bonus for first two performed jumps, which are identified as eligible for bonus points.

- a) Maximum of 5 jump elements one of which must be an Axel type jump. There may be up to two (2) jump combinations or one (1) jump combination and one (1) jump sequence. Jump combinations and jump sequence consist of only two (2) jumps. In the jump sequence the second jump must be an Axel type jump with a direct step from the landing curve of the first jump in to the take-off curve of the Axel jump. One full revolution on the ice between the jumps (free foot can touch the ice, but without weight transfer) keeps the element in the frame of the definition of a jump sequence. Jumps executed in a jump sequence receive their full value. Any single and double jump (including Double Axel) cannot be executed more than twice in total. Repeated jump must be executed either in a jump combination or in a jump sequence. Each repeated solo jump, which is not part of the combination or sequence, is evaluated with the 70 % of its original base value and will be marked as jump + REP.

- b) There must be a maximum of two (2) spins of a different nature (abbreviation), one of which must be a spin combination and one must be a spin with no change of position. The spin combination can be executed with a change of foot and a minimum of eight (8) revolutions or without a change of foot with a minimum of six (6) revolutions. The spin with no change of position can be executed with a change of foot and a minimum of eight (8) revolutions or can be executed with a change of foot and a minimum of six (6) revolutions. In both spins flying entries are allowed. In spins, the minimum number of revolutions in position is two (2). If this condition is not fulfilled, the position is not counted.

- c) There must be a maximum of one (1) step sequence or one (1) choreographic sequence. Step sequence will be subject to levels. The step sequence must fully utilize 2/3 of ice surface. Choreographic sequence must fully utilize 2/3 of ice surface and must contain at least one (1) spiral position of min. 3 sec. The choreographic sequence will be evaluated at a constant value and designated as ChSq (Choreo Sequence).

For Juvenile, in all elements which are subject to Levels, only features up to Level 3 will be counted. Any additional features will not count for Level requirements and will be ignored by the Technical Panel.

The following Program Components are judged:

PRE-JUVENILE BOYS(born after 1st July 2015 – 30th June 2017)

FREE SKATING

Duration: 2 min. +/- 10 sec, Vocal music is allowed.

A well balanced Free Skating program for Pre-Juvenile must contain:

- a) Maximum of 4 jump elements one of which must be an Axel type jump. There may be up to two (2) jump combinations or jump sequences. Jump combinations and the jump sequence consist of two (2) jumps. In the jump sequence the second jump must be an Axel type jump with a direct step from the landing curve of the first jump in to the take-off curve of the Axel jump. One full revolution on the ice between the jumps (free foot can touch the ice, but without weight transfer) keeps the element in the frame of the definition of a jump sequence. Jumps executed in a jump sequence receive their full value. No jump may be repeated more than once (so it can be performed twice), and a repeated jump must be performed as part of a combination or sequence. Each repeated solo jump, which is not part of the combination or sequence, is evaluated with the 70 % of its original base value and will be marked as jump + REP. Triple jumps are not allowed.
- b) 2 spins of a different nature (abbreviation). Spins are different if they have different abbreviations and different positions (eg USp and SSp). E.g. USp and CUSp are not considered as different spins. The spins can be executed without a change of foot (min. 4 turns) or with a change of foot (min. 6 turns). In spins, the minimum number of revolutions in a position is two (2). If this requirement is not fulfilled, the position is not counted.
- c) Choreographic sequence (ChSq). It will be valued with a fixed base value. The choreographic sequence must cover min. 2/3 of the ice surface and must contain at least one (1) spiral position (edge) with a min. 3 seconds. It may also include various steps, turns, spirals, spread eagles, InaBauer, hydroblading, etc., which will be judged in the GOE by the judges.

For Pre-Juvenile the highest possible level is Level 2 according to ISU rules for seniors, juniors and novices. All other conditions for raising the level will not be counted and will be ignored by the technical panel.

The Program Components are only judged in:
